EVERLAST LABELS

Paw Paw Everlast Label Company is the ORIGINAL metal plant label manufacturer, in business since 1937. Other labels may look similar, but they are imitations. Ours are the original, and they are quality tested for long-term durability. Our customers report that the labels have remained intact, legible, and usable after many years in all types of adverse weather.

The wire standards are made of a fine quality metal with etched zinc nameplates. Zinc is considered the choice material available for outdoor labels as it provides a permanent, rust-proof label far superior to wood or plastic. Our labels are inconspicuous, harmonize with the outdoor environment, and permit beautiful, unblemished color photos of your garden.

Test our labels and prove to yourself that they are the best on the market today. EVERLAST... the fine quality, all-metal garden label — so economical that everyone can afford it. Made in Michigan with products purchased in the USA, our labels are shipped directly from our manufacturing plant, postage prepaid.
